**Event Brochure**

# Admire Interventional Masterclass (AIM)

**AIM, or Admire Interventional Masterclass**, is a premier symposium designed to empower dermatologists, young consultants, and students in interventional dermatology. Delivered by India's leading experts, AIM offers a dynamic combination of interactive sessions and hands-on workshops to enhance both knowledge and practical skills.

The **Interactive Conference** includes:

**Masterclass Lectures** on advanced aesthetic dermatology techniques

**Case-based Panel Discussions** to explore real-world scenarios with expert insights into diagnosis and treatment approaches.

**Debates** between panel of experts exploring hot or controversial topics within aesthetic dermatology.

**Live Demonstrations** of advanced dermatological procedures by renowned experts.

**Product Showcases Sessions** where pharmaceutical and device companies present innovative devices, cosmeceuticals, and injectables shaping the future of dermatology.

A key highlight of the conference is the six hands-on workshops, where participants gain over 10 hours of practical training in areas like,

**Botulinum Toxin & Skin Boosters | Semi-permanent Make up | Fat Grafting, SVF, Body Contouring & Threads | Regenerative Trichology | Fillers | Lasers & Energy-Based Devices**

These workshops offer real-time procedural experience under expert guidance, ensuring attendees develop the confidence and proficiency to excel in advanced dermatological techniques.

Workshops are conducted concurrently over three days. This allows participants to select areas aligned with their learning goals for in-depth skill enhancement.

***AIM is more than just a symposium—it is a transformative opportunity to gain advanced knowledge, master practical skills, and elevate your dermatology practice to the next level.***
